

FloorShark

Why choose KernowJet FloorShark® for your indoor floors?

KernowJet FloorShark is a unique floor graphics solution for indoor applications. It is perfect for retail stores, supermarkets & shopping centres, airports, travel hubs, convention centres, ideal for all smooth hard floors from concrete to tiling also including low pile carpets tiles. Its unique sharkskin coating absorbs the inks and dries to a hard slip-resistant surface. The coating offers a high R10-certified slip resistance and eliminates the need to laminate.

The floor graphics film is PVC-free and strongly tear-resistant, it will withstand everything from pallet trucks to stiletto heels. With its specifically developed adhesive, it is easy to apply and to reposition while applying - it will definitely not stretch or become distorted. KernowJet FloorShark offers an excellent removability; it is ideal for smaller designs like stickers as well as covering of bigger surfaces made of multiple film strips. With zero shrinkage- avoiding the risk of a rim of dirty adhesive forming around the print once applied. FloorShark can be applied with either a butt joint or with an overlapping technique.

Code	Product Name	Thickness	Width (mm)	Length (m)	Adhesive (after 24hrs)	Printability
170TFG	FloorShark®	170µ	1372 1524	25	Removable 11N/25mm	  

Tip:
 Avoid overly complicated shapes, always cut the edges round to prevent edge lifting

Tip:
 Also Ideal as a PVC-free, textured, scratch-resistant wallcovering film. No stretching or distortion
